IS SELECTED BY MEMBERS OF  
SUPREME COURT TO COM-  
PILE STATUTES.

Attorney Walter D. Cole yesterday received a message from the justices of the supreme court announcing that he had been selected to assist in the compilation and revision of the law recently enacted by the state legislature.

The supreme court recently granted a contract to E. F. Patrick of Goldfield to construct a working model of the statutes. He will make all arrangements for indexing the heads and will completely index the work. At the conclusion of his contract, which will be in about three or four months, Mr. Cole will start on his labors which will take over a year and the book will be made as complete as possible.

The selection of Mr. Cole was made from over twenty applications from various people throughout the state. From the labors he will gain a valuable insight of the laws of Nevada and from all decisions rendered in other states that relate to the statutes of Nevada.

COMPANY.

Stockholders of the Round Mountain Mining company held their annual meeting in the offices of the company in Goldfield Monday, there being 791,706 shares represented out of a total of 800,000 shares of outstanding stock.

Reports of the officers of the company showed that its affairs and property alike are in a most satisfactory condition, and complete reports for the year were ordered sent to the various stockholders. These will be mailed in a few days and will contain most complete data as to all affairs of the corporation.

Directors and officials elected to serve the company during the ensuing year were as follows: J. R. Davis, J. P. Loftus, W. H. Bryant, Tom Keane and Louis Gordon. Mr. Davis was re-elected president and general manager; Mr. Loftus, vice-president; W. E. Johnson, of John S. Cook and company, treasurer, and H. G. Mayer, secretary and assistant treasurer.

J. P. Sweeney of Goldfield, who has been making a determined effort to secure the control of the company, did not have sufficient strength and lost out. There was a great deal of animosity existing between the two parties, but in spite of that the meeting was harmonious.

## IS ARRESTED FOR STEALING FURNITURE

LEWIS SALE BROUGHT FROM  
MANHATTAN ON PETTY  
LARCENY CHARGE.

A warrant was issued in the justice court yesterday for the arrest of Lewis Sale of Manhattan on the charge of petty larceny. The complaint was sworn to by William Baker of Clifford, who alleges that Sale entered his house in Clifford, and moved away considerable of the furnishings.

Deputy Sheriff T. S. Marshall left for Manhattan yesterday morning and served the warrant on Sale and brought him back to this city in the afternoon. Sale was released on bonds until his preliminary hearing which will come up before Judge Atkinson this morning.

He is a painter by trade and was working at this occupation in both Clifford and Manhattan.

### NEW AGENT FOR GOLDFIELD.

C. F. Arnold, late of the Wabash road in San Francisco, has been appointed to the position of ticket agent for the Tonopah and Goldfield railroad in the uptown ticket office, at Goldfield, to take the place of J. F. Carney, who has returned to his home in California.

## SOME POWERFUL ENGINES FOR THE HEAVY TRAINS

MOST POWERFUL LOCOMOTIVES  
IN WORLD FOR THIS DIVI-  
SION.

Two types of the largest railroad locomotives in existence are expected to arrive in Reno and Sparks within the next week, hauling the heaviest train loads of freight ever witnessed in transportation through Reno. These mammoth providers of wondrous power, each having a weight of 394,000 pounds, and nearly twice the size of any locomotive ever used there, will be in the service of the Sacramento division only, running between Sacramento and Sparks.

These engines are the most powerful ever manufactured, having a hauling capacity two and three-tenths greater than other ordinary engines. Although they are incapable of the speed attained by those, this modern locomotive has become indispensable in this section of the Harriman system over the Sierras, as the increasing volume of California shipments to the east over these mountains has become enormous.

These locomotives are known as the Nalle compound articulate engines, costing \$28,000 each at the factory and unequalled in size and power by any known locomotive of any foreign make. Hereafter, instead of requiring the use of two or three engines for a single heavy train over the mountain grades, one of this new type will do the work.

The matter of economy with the Southern Pacific in crossing the Sierras, in competition with the Western Pacific, has made this improvement in its service necessary.

### JUDGMENT TAKEN.

A judgment was taken in the district court yesterday in the case of the Mohawk Duluth Mining company vs. A. J. Hawkes, in the favor of the defendant for the sum of \$2260, owing to the plaintiff not appearing.
